### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: In claim 16, the claimed method of forming a magnetic head comprising fabricating P1 and P2 poles by electroplating NiFe material, wherein the duty cycle of an electroplating current is varied during the electroplating process to form a P1 and P2 magnetic pole having a graduated NiFe composition is neither taught nor suggested by the prior art of record. Calhoun et al (US 5,883,762), Harris et al (US 5,683,568) and Lorenze, Jr. (US 4,418,472) show electroplating processes for NiFe pole materials but do not provide the method of the varied duty cycle with graduated NiFe composition.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George J. Letscher whose telephone number is 703-305-7912. The examiner can normally be reached on Conventional.
